## IT-related facilities in the Library and Department

The institute offers Advanced learning resources, including access to NPTEL courses and software subscriptions. Duolingo, Quizlet software is used for language laboratories and Chem-Draw drug design software are just a few of the essential software tools that are used to improve the learning and research environment. The library includes a wide range of digital resources, such as online databases, e-books, and e-journals. Through subscriptions to resources such as the DELNET, National Digital Library of India (NDLI), and Shodhganga, the students have access to online information, Research Papers, and Books.

Computers with Headphones are available at the Library in Hall

### E-Governance Initiatives

The college's E-Governance initiative enhances efficiency, communication, and security by implementing key technological solutions. An ERP system streamlines administrative processes, while institutional email accounts and WhatsApp groups facilitate secure and real-time communication. CCTV surveillance ensures campus safety, and Tally accounting software precisely manages financial operations. Additionally, online admission and fee payment systems using QR codes simplify and secure these processes, collectively modernizing the college's operations and improving the overall experience for students and staff.

The college utilizes the ERP solutions developed by the Marwadi Educare Foundation. Their advanced ERP system seamlessly integrates various academic, administrative, and financial functions into a unified platform. This integration enhances efficiency and transparency by automating processes such as student admissions, attendance tracking, fee management, and academic scheduling. The real-time data access provided by the ERP system facilitates informed decision-making and improves overall operational efficiency. By implementing these e-governance initiatives, our college ensures a streamlined, user-friendly experience for students, faculty, and administrative staff, demonstrating our commitment to excellence in educational administration.
